PROFILE

I am a passionate and results-driven web designer with extensive experience in creating modern, responsive, and user-friendly websites. Over the years, I have successfully completed 17+ projects, ranging from e-commerce platforms to corporate and service-based websites. My expertise lies in WordPress, and SEO optimization, ensuring that businesses establish a strong digital presence.

Currently, I am expanding my skill set to become a full-stack developer by mastering technologies like React, TypeScript, and API integration. My goal is to transition into a full-time tech role, where I can leverage my creativity, problem-solving abilities, and technical expertise to develop innovative digital solutions. With a strong commitment to continuous learning, I stay updated with the latest web trends and technologies to deliver cutting-edge solutions.
